

← Trim Line

Trim Line →

Final Trim Size (Size Ordered) = 8.5" x 11"

Document Size with Bleed = 8.75" x 11.25"

This example is for an 8.5" x 11" flyer but the amount of bleed and safe area will be the same regardless of the size ordered.

If your document does not bleed meaning that there is at least .25" of white border on all 4 sides then you do not need to submit a document with bleed.

In this example a submitted file size of 8.5" x 11" would be acceptable.
